LYNXFORCE | SPECIALIST SERVICES

DISASTER PREPAREDNESS

At Lynxforce we offer a truly unique approach to Disaster Preparedness. What separates us from our competitors is design experience. We believe we are leaders in the field in the application of Disaster Preparedness assessment, design and implementation, for corporate entities, and even business neighborhoods.

Other companies offer advice on bomb-film-for-windows and the standard 400 meter bomb evacuation distance. But where others stop, we proceed on from, and provide a comprehensive assessment for evacuation, invacuation, and strategic inter-company protocols that especially fits the remit for building management firms, and landlords. We tailor the package to specifically suit the client, and do not offer a generic solution that fits all.

We are also able to offer regional evacuation plans for local government authorities, as well as structured advice for national government bodies.

- knowledgeable not uninformed,
- approachable not intimidating,
- presentable not untidy and
- Strong not overbearing.
